POSITION ANNOUNCEMENT ASSISTANT PROFESSOR Department of Health Services Administration School of Public Health University of Maryland

The School of Public Health at the University of Maryland, College Park invites applications and nominations for an Assistant Professor tenure-track position in the Department of Health Services Administration with the appointment effective as of August 2017. The successful candidate will be responsible for teaching, research and service activities. We seek candidates with expertise in one or more of the following areas: health care administration, health care management, health services research, health policy analysis, health economics and health equity. Additionally, we seek candidates who can provide leadership on 1) developing the research enterprise with extramural funding; 2) developing and teaching graduate and undergraduate courses; 3) advising and mentoring students; 4) supervising master's theses and doctoral dissertations; and 5) participating in service projects that address the school's mission of advancing a better state of health. The successful candidate must possess an earned doctorate in health care management, health services research, health policy, health economics, public health or related areas and have experience conducting original and applied research. For candidates in the health care administration area, demonstrated capacity in research as well as experience with areas in health care management, including organizational behavior, operations management, or health care finance is preferred. Recent PhD graduates who work in the private sector are encouraged to apply. For candidates in the health services research, policy, economics, and health equity areas, demonstrated capacity in research as well as experience with state and/or federal legislative health services policy is preferred. This is a 9-month tenure-track appointment. Rank and salary are commensurate with qualifications and experience.

The Department is designed to integrate health services, public health, health policy, health equity, and social welfare activities in order to address current health needs, provide leadership in a rapidly evolving health care industry, and anticipate future health challenges in a changing health care ecology. The Department's mission is to improve population health and achieve health equity in the community, in the state of Maryland and nationally by training future leaders, and pursuing excellence in research and service. The Department includes five degree programs and two certificate programs. The degree programs include a PhD in Health Services, the Master of Health Administration (MHA), the Master of Public Health in Health Policy Analysis and Evaluation, the Master of Public Health in Health Equity, and the Online Master of Public Health in Public Health Practice and Policy. The two graduate certificate programs include a Certificate in Gerontology and a Certificate in Principles of Public Health.

The School of Public Health at the University of Maryland is pioneering the future of public health by transforming research into effective strategies and policies that improve the quality of life for all people. The School of Public Health is accredited by the Council on Education for Public Health (CEPH). Through scholarship and service, the school and department are committed to promoting and protecting health and well-being in the State of Maryland, the Washington D.C. metropolitan area, DHHS Region 3 and beyond. The University of Maryland is a Research Intensive University. College Park is the flagship campus of the University of Maryland System with over 2,500 faculty and 27,000 undergraduate and 10,000 graduate students. The University is located in Prince Georges County Maryland and 5 miles from Washington D.C. The national capital region is home of significant racial and ethnic minority and immigrant populations. Additionally, the University is within close proximity to the National Center for Health Statistics, Food and Drug Administration, National Institutes of Health, and many other federal, state, and local agencies, as well as headquarters for numerous public health-related non-governmental organizations and think tanks. For further information on the Department Health Services Administration, please visit our Website: <http://www.sph.umd.edu/hlsa/>.

Please apply online at <https://ejobs.umd.edu>, search position #122434. Applicants should submit a letter of application (including a short description of current and future research, and teaching experience), CV, and list of three references. All applications will be kept strictly confidential.

Applications should be completed by December 1, 2016 for best consideration. The position will be opened until filled. The review of applicants will be ongoing, so we encourage you to apply early. For additional information please contact committee administrative staff Ms. Lynne Reilly at lreilly@umd.edu.
